-----READ CAREFULLY BEFORE ORDERING-----

No orders accepted at prices quoted for less than \$1.00. If less quantity wanted double the price.

Transportation charges to be paid by the purchaser. We prefer to ship by express as plants will arrive at destination in much better condition. If shipment by mail is desired add to the purchase price 15% for zones 1 to 4, inclusive, and 25% for all others. We do not pay postage.

Plants quoted are from 2-1/2 inch pots. Will quote prices on larger plants if desired. We make no substitutions unless requested.

PELARGONIUM SWEET-SCENTED, NOVELTIES AND ODD VARIETIES OF GERANIUMS

Adcifolium	-Snowflake - An extra choice variety, round hairy leaves with white blotches in leaf. Rose scent, lavender bloom....	.25

Dennisianum	-Round leaf balm - Large fragrant leaves.....	.25

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the integrity of the financial system and for the ability to detect and prevent fraud.

2. The second part of the document outlines the specific procedures for recording transactions. It details the steps involved in the accounting process, from the initial entry of data into the system to the final review and approval of the records.

3. The third part of the document addresses the issue of data security. It discusses the various risks associated with the loss or theft of financial data and provides recommendations for implementing robust security measures to protect the information.

4. The fourth part of the document focuses on the role of technology in modern accounting. It explores the benefits of using computerized systems for record-keeping and discusses the challenges associated with integrating new technologies into existing workflows.

5. The fifth part of the document provides a summary of the key points discussed throughout the document. It reiterates the importance of accurate record-keeping, proper procedures, data security, and the effective use of technology in the accounting process.
